

ABSTRACT

The main objective of this study was to assess the impact of divorce on children academic and life skills and to recommend appropriate solution to the problem.

The research was carried out on divorced parents children and on parents in Wolkite Gorosecondary high school on grade 9 and to class student.

To obtain the sample population the researcher employed purposive sampling techniques in order to purposely to study student of divorce parents questioner and interview was used to collect information. The data was analyze qualitatively and quantatively regarding the quantitive the researcher use percentage and frequency. To analyze the data and qualitatively express the result in narrative way the result show that respondent reported they were academically poor, different psycho social problem and different life skill problem like lack of confidence, lack self esteem and interpersonal skill problem.

Based on this the researcher recommended that:

- Any concerned body governmental and non-governmental applies their effort to overcome the problem of divorce on children specially for those who are more affected by issue.
- Regular orientation and information should given to the community on the issue of the impact of divorce on children by using local media like FM and other media.

ACKNOWLEDGEMENTS

Above all I would like to say Alhmduilahe Rebil-Alemin to my God, Allah for he made everything right and possible through this study.

Then my grateful thanks goes to instructor Berhanu Niguisse for his constructive orientation and consistent comment throughout the development of the research paper also my Family and my relatives specially Beharu Teka. I deeply appreciate and thank you for your countless contribution over this study not only for this study the success of my education from start to finish.

I would like to give my heartfelt thanks to my secretary Zewditu for her patience write and correct whole paper.

Lastly but not least my friend like Tofik Jemal, Nuredin Negash, Famy Biruk, psychologiest sisay, child to child club of Goro-Secondary high school thank for your help during data collection and your idea and moral support.
